FOR IMMEDIATE RELEASE

### **MONROE CITY 3D SEISMIC SURVEY COMMENCING IN TEXAS**

On January 26, 2011 Fairways Exploration & Production, LLC ("Fairways") commenced its 170 square mile proprietary 3D seismic survey in Chambers County, Texas. This is a long offset 3D seismic survey that will enhance the Frio trend, already in the county, as well as extend the high prolific Yegua/Vicksburg play from Jefferson County southwest into Chambers County. Fairways expects to complete seismic acquisition by July 2011 and processing by March 2012.

Fairways is a privately-held company focused on high-impact exploration and development of onshore oil and natural gas reserves in the lower 48 states.
